

TO TAKE ULTRA...

HOW

Ultra Body Toddy is a superior product, not only because it provides all the nutrients in one convenient, easy to take product, but the absorption of these nutrients is exceptionally high due to a process called extended bio-availability. In simple terms this means that your body will get more of what it needs - faster!

Ultra Body Toddy is ideal for almost every member of the family. The dosage is regulated by body weight.

Children over 60 lbs: 1/8 oz. - 2x a day

Teens: 1/2 oz. - 2x a day

Adults over 100 lbs: 1/2 oz. - 2x a day

This dosage may be increased to 1 ounce per 100 lbs if a health challenge or severe deficiency is present. Dividing the dose in half and taking it morning and at the evening meal will increase the absorption of the water-soluble nutrients.

Try Mixing Ultra Body Toddy with Cranberry Juice · Plum Juice · Tropical Fruit Punch · Your Favorite Drink · Or Even Water!

One of the first benefits observed by many Ultra Body Toddy users is an increase in energy and well being. This is due to the fact that, as your internal chemistry is being rebalanced by the presence of Full Spectrum Nutrition, your body is better able to cleanse and detoxify itself of cellular waste.

A word of caution... A few people are so toxic that they experience temporary symptoms of rapid cleansing or detoxification. If you follow the above recommended dosage schedule this will be very minimal, however, should you experience headache, fatigue, or diarrhea, this is a sign that your body is trying to cleanse and rebalance itself too rapidly. Simply cut your dosage of Ultra Body Toddy in half for a week to ten days and then readjust to the recommended amount as indicated above.

GOT TODDY ?

ULTRA®?

WHY

What Makes It Different ?

Ultra Body Toddy is the most nutritionally complete full spectrum, dietary supplement ever offered in liquid form.

It contains over 120 nutrients packed in one single bottle!

Ultra Body Toddy provides high potency vitamins, amino acids, trace minerals, and major minerals in a highly absorbable chelated, organic compound form. This makes the normally difficult major minerals more absorbable than ever before.

In addition to this full spectrum of nutrition, Ultra Body Toddy provides specialized nutrients such as bioflavonoids, dimethyl glycine, a blend of phytonutrients, and for the first time, Cell Shield™ a combination of powerful antioxidants specifically designed to enhance the genetic potential of living cells.

Dozens of essential nutrients are missing from your diet because of today's harvesting, transporting, and crop storing methods. The fact is: Most vitamins found in fruits and vegetables are not formed until the very last stages of ripening. Nowadays most fruits and vegetables are picked green, several weeks before they are even ripe. Picking so early means the crop has not had the opportunity to fully mature and form the nutrients your body craves.

Even more damage is caused to these raw foods during the process of drying, freezing and canning. Even when we purchase fresh food in the market, as soon as we tamper with its natural state (by cooking or refrigerating) nearly all of the remaining vitamins and minerals have rapidly disintegrated.

Obviously, once you understand why the nutrients are missing from the foods you eat, you can see why it's nearly impossible for you to receive the proper nutrients and in the correct ratios simply by eating a balanced diet. If you don't do something to change this today, prepare to pay the price as you age. The only way to provide your body with the nutrients it needs for optimal health is through supplementation.

The typical American diet is deficient in nutrients...

IT WORKS...

"Well being. That's the term that comes to mind when I think of your Ultra Body Toddy. I have never felt anything quite like this before and I have been taking supplements for over 30 years! What's REALLY in that stuff anyway. I take it back, I don't want to know, just keep up the good work!"

Rose Lee, R., San Diego, California

"Twenty years ago I was in an extremely bad car accident. I've used many supplements since that time, and I've found that Ultra Body Toddy, which I started using eight years ago, has been by far above and beyond the best supplement I've ever used."

Mark L., Helena, Montana

"Your Ultra Body Toddy is the easiest supplement program I have ever used. I was taking over 40 pills a day and with the liquid it's fast, easy, and boy, am I saving money."

Robert K., Des Moines, Iowa

Ultra Body Toddy takes the guesswork out of it and ensures maximum absorption of the 120 nutrients you need everyday!
